Tumkúr District
Deputy Commissioner's Office
Tumkúr 4th December 1891.

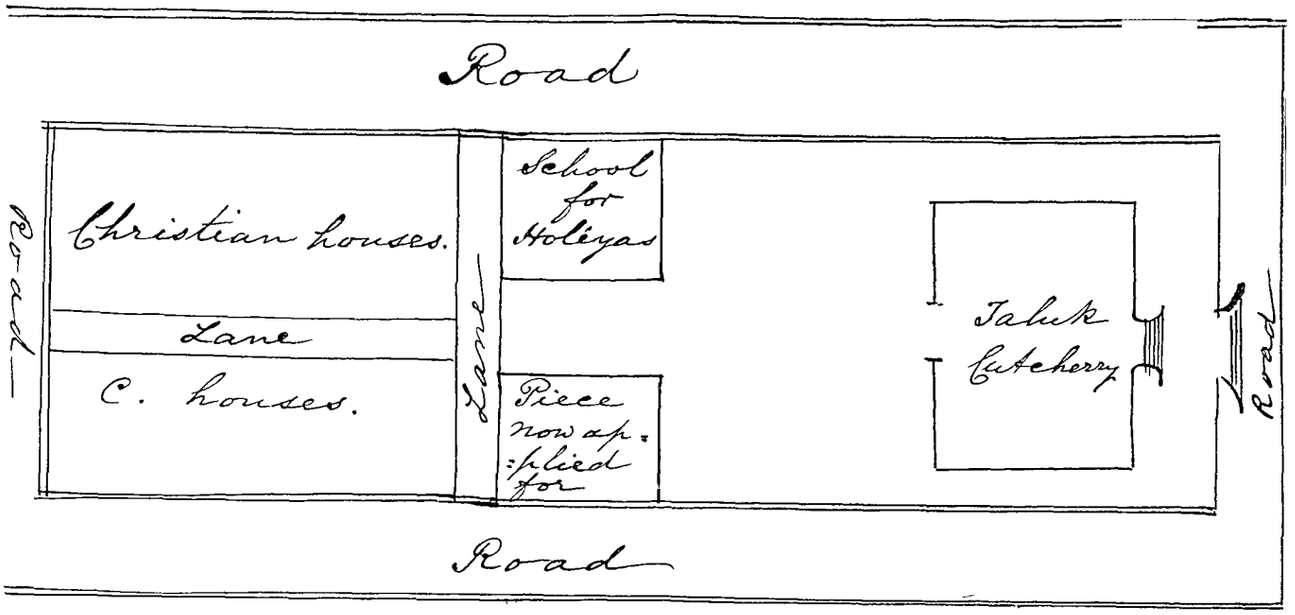
To,

The Chief Secretary to the
Government of Mysore

Sir,

I have the honor to acknowledge the receipt of Government order No: 87356-L. 745 of the 12th Ultimo forwarding for my remarks Mr: Dalal's letter No: 1321 of the 27th October 1891, and in reply beg to state as follows.-

2. Behind the Taluk Cutcherry at Tumkúr there is a large piece of vacant ground and immediately after that ground are the Christian houses. Sometime ago the Revd: Sawday applied for a small portion of the ground close to the Christian houses to build a School for Holéyas, and the then Deputy Commissioner Mr: Cress granted it to him and he built a School on it. Recently Mr: Sawday applied for a similar piece out of the same ground in front of the site already granted as shewn below



3 The application was put before the Municipal Board. Mr: Dalal opposed the application on the ground that the site might be required for a municipal school &c. Three Members Messrs: (1) Venkatachelliah, (2) Venkatachar, (3) Appanna Shetty and (4) Davud Sahib agreed with him. Members (1) Messrs. Ramadasappah, (2) Siganna Shetty and (3) Sawday said that the piece might be given away and I agreed with them and said that the piece might be sold by public auction firstly because the vacant ground behind the Cutcherry would then become a regular rectangle, secondly because the site was much too small

least suited for a School for
Caste boys owing to its proximity to Holeja
School and Christian houses and third=
=ly because I wished to avoid the suppos=
=tion that the opposition might have ema=
=nated out of personal feelings existing
between
Mr: Dalal and Mr: Sawday. Putting
two Votes for the President there were 5
Votes on each side and so I said I would
adjourn the point for discussion at a
full meeting. Upon this Mr: Dalal said
that the President had no two votes
and that Mr: Sawday could not vote
as he was himself the applicant.
Mr: Sawday said that even in Parlia=
=ment the introducers of subjects had
votes and therefore he saw no reason
why he as a member should not vote
because he was the applicant. Here
Mr: Dalal wanted his objections to
be recorded and added that he
would send a minute for transmission
to Government. Accordingly his objec=
=tions were recorded and then the
point was adjourned to a full meeting
as I thought that though the applicati=

was in Mr: Chowdary's name still
Site was apparently for a native
Christian and not for himself.
4. A week after, Mr: Dalal
sent a minute and wanted me to sub-
=mit it to Government and inform him
of my having done so. In reply I said
that as a Copy of the Proceedings had
gone, as his minute contained no fresh
fact and as the matter was subjudic
and could be discussed at the next
meeting there was no need to trouble
the Government with further reference
in the interim. And as in his minute
he had also called in question the
act of the late President in having
given the Site for the Holeya School
without consulting the Board, I told
him that I could not discuss the
=ct of my predecessor and added
by way of information that that act
was not irregular, that there was
no rule to consult the Board in the
disposal of applications for sites
and that the Mofussil boards were
not created by virtue of any Enactment

with any property vested in them, but that their members were appointed by Executive orders of Government as mere Consultative Agents on matters of Sanitation &c. In his notes accompanying his letter forwarding the minutes to Government Mr. Dalal alludes to this as my "Exposition of the Law" and asks if the members are merely Consultative Agents. In regard to this I beg to state that this is not my Exposition of the Law, but that it is the order of the Government who in Para 8 of Proceedings No. 3593/60 of the 13th August 1888 say that "in Municipalities "not constituted under the provisions "of any existing Law the Municipal "Boards are formed under an Executive "order of the Government for the pur-"pose of merely aiding the officers of "Government in the maintenance of "due sanitation, but they have no "legal Status and have no property "vested in them". The order further goes on to say that Sites &c in ...

municipalities not belonging to any vest in Government. They are now disposed of by the Deputy Commissioners under the Revenue Code and Rules. At this rate the various grants made by the several Deputy Commissioners and the Government may be called in question.

5. In his second minute forwarded to Government Mr: Dalal says that he does not remember that the sentence in the Municipal Proceeding marked by him was read at the meeting. It is no resolution of the Board but merely my reason for the adjournment of the point to a full Board. If Mr: Dalal did not hear it read it may be that his mind was at the time otherwise engaged, as when the proceedings were read and the members were asked if they would meet in the afternoon to discuss the next year's budget he (Mr: Dalal) shewed by his gestures, words, &c. that he was much excited so much so that he even thought fit to say that he would not attend Meetings presided by such a President and that it was all

"ill unconstitutional, arbitrary, &c. In fact he unfortunately evinced so much loss of temper that a member subsequently remarked that if any one else were in the chair the result would have been different; but I knew Mr: Dalal had often told me that he was easily excitable.

6. This is not however the first instance of the kind. I am credibly informed that when on a previous occasion Mr: Cress was disposing of some matter connected with another person (towards whom Mr. Dalal has the same feeling as towards Mr: Sawday) Mr: Dalal so much interfered as to compel Mr Cress to remark to him not to "complicate matters" but to let him dispose of the same "amicably". I am also informed that on an earlier occasion Mr: Dalal by adding some notes of his own to a Memo. circulated among the members so much insulted the then President Mr: Krishna murthi Rao as to induce him to tear off the paper.

7. As I am asked by Government

my remarks I have done so.

8. The Enclosures of the order under reply are herewith returned.

I have the honor to be,

Sir,

Your most obedient Servant

President of the
Imukin Municipal Board.

PRS

Dated 27th October 1891.

From [illegible]

The Executive Engineer,
Tumkur Division,
and Ex officio Member,
Tumkur Municipality

To

The Chief Secretary
to the Government of Mysore.

Sir,

I have the honour to forward herewith, for the information of the Government, copy of my letter no: 1261, dated 15th October 1891 to the Deputy Commissioner Tumkur District, and his no. 1160, dated 17th October 1891, in reply thereto, with my observations.

2. I beg the favour of being informed whether the Municipal bodies are merely Consultative agents to advise the President

as stated by the Deputy Commissioner also whether I am a member in my official capacity as Executive Engineer, or as a citizen

3. Plan, that accompanied the minute, was not returned by the President, though asked, vide correspondence accompanying. A fresh plan is therefore prepared and submitted.

I have the honour to be,

Sir,

Your most obedient Servant,

Executive Engineer's observations thereon

Copies of correspondence

Extracts from proceedings of the Tuticorin Municipality dated the 8th Oct

1. Read the application of Rev: Saun for a piece of ground near his School. adjoining the Christian houses &-

Messrs (1) Dalal. (2) Venkatachaliah, (3) Venkata Char (4) Appanna Chetty and (5) Davood Saib Said that the Site Shd be reserved for any municipal buildings that may have to be built, while Messrs: (1) Soogappa Chetty (2) Ramadas appa, and (3) Sawday opened that it might be given out. The President thought that it might be sold in public auction. Assuming that the president had two votes it was thought that there was an equal no: of votes on each side viz 5 and so the President considered it advisable to further discuss this point at the next meeting as all the members were not present now. But Mr. Dalal said that there should be no postponement as the President could have no double vote when there was majority on one side including the single vote

of the President. He further objected to Mr. Sidaway voting on this point, he being the applicant for the site in question. Though the application is in his name still the site is not for himself but apparently for a native Christian and so the President thought that the point had better be decided by a full board and accordingly he postponed for the discussion to next meeting. Being late adjourned to 3 P.M. today

Madras
Executive Engineer
Nellore Division

Junkun "D"

Dated 15th October 1891.

Encl to Sl C

The Executive Engineer
Junkun Division,
and Ex Officio Member,
Junkun Municipality.

To

The Deputy Commissioner
and President,
Junkun Municipality.

Sir,

I have the honour to forward herewith a minute and plan by me, on a municipal question, disposed of at the meeting of the Municipal Board on the 8th instant, and request the favour of your sending them to Government, in Continuation of

T.L.

the Board's Proceedings. I beg to be informed of the papers being sent to Government as requested by me.

I have &c.

Signed. C. J. Dalal,
Executive Engineer
Dumka Division
and Ex Officio Member
Dumka Municipality

Minute by Mr: C. J. Dalal, on an application by the Rev: Mr: Sawday, for a piece of land in front of the Dumka Jail by Culcherry, laid before the Municipal Board, at its meeting held on the 8th October

Present:

Messrs: Venkalāchari, Venkatā
chala, Appamachetty, Pensioned
subedar Sayyed Daoud Sahib,
and myself were against-
giving the site, and Messrs:
Singappa, Ramadasappa were
in favour of giving the site
to Mr: Sawday.

2. The Rev: G. W. Sawday then
said that he would withdraw
the application as the majority
was against him; but the
President said that as Mr:
Sawday himself had a vote,
and the President had two
votes, there would be 5 votes
against the proposal, and
5 in favour, and that he
would post-pone the question

to

is not correct. Mr Sawday said that he had a vote, as even Parliament members introducing Bills have votes.
25/11/91

to be discussed at a previous meeting, and wrote down the resolution.

3. I submit that this will be a dangerous precedent, as this would enable the President to post-pone the decision on any question, when he finds the majority not agreeing with him.

4. In writing down the resolution the land is described as one adjoining the Christian Street. As this expression was misleading the majority of the members asked the President to put down the site as an open ground in front of the Dalhousie Cutcherry

This is not the only instance of adjournment. The same day other adjournments were made. Even in High courts when there are doubtful points are referred to full bench

25/11/91

That the site applied for is closer to Christian houses than the Municipal cutcherry can not be disputed for a moment. Any reality with the intention of creating an impression that the site was so close to the Municipal cutcherry as to render it inadvisable to part with it. was asked to drop it as being near the cutcherry omitting all

Cutcherry. This he said he would not do. I then gave notice that I would write a separate minute, and ask him to submit it to Government.

5: Plan of the ground referred to is herewith submitted. It will be seen therefrom that there was once an open ground 150 x 193 ft: in front of the Jaluq Cutcherry, and it looked very respectable in front of a big building like the Jaluq Cutcherry. Nearly two years ago, the

President

Vzesi gave away, out of this, a piece of land, 90 x 55 ft. approximately, to the mission for building a christian school, without consulting ⊕ the Municipal Board, vide plan. They, therefore, naturally think, they can get piece A (vide plan) now asked for.

⊕ Go rule to do so - Ales 25/11/91

6. I am of opinion that no part of this open ground should have been alienated, and that, if any building is to be permitted to be built on piece A, it should be reserved for either a municipal or Government building

meaning. The members of opinion that the present Government vernacular school for boys was on low ground, and it was desirable to build a new one on this site when funds become available. I also express my opinion that, if any public building has to be built hereafter, there was no other vacant site in the town, and it should therefore be reserved. We (the majority) asked the President to record these reasons of ours for refusing the application; but he refused doing so, saying that he would only mention that the site may be required for municipal purposes, and that our opinion about the site being probably required for boys' school and other public purposes was irrelevant, and

Cont'd

Mr Dalal stated this opinion that the site is too small - this school scarcely suitable as caste school such proximity Holiya school
25/11/91

This site is much too small for any Govt building but for the capacity to Mr Sawoy's application I felt that so much solicitude for site for any Govt building that may hereafter be built would not have been
25/11/91

could not be recorded. I may beg permission to submit this minute for the orders of the Government.

7. I think the Municipal Board ought to interest themselves with respect to schools and school buildings equally, whether the Local Funds or Provincial Funds or the Municipality pay for them. In fact for Government Vernacular schools for boys, the Municipality pays one-third of the cost of the buildings and maintenance. I do not see how, then, our opinion is irrelevant.

Dated 10-10-913 Dumka
Signed/- C. J. Dalal
Executive Engineer
Dumka Division
and Ex officio Member
Dumka Municipality

Dep: no: 1043 / 1891

Deputy Commissioner's Office
Tumkur District

Tumkur 17th October 1891

To
C. T Dalal Esq.re
Member of the Tumkur Town
Municipal Board.

Sir,

In reply to your letter no 1261 of day before yesterday I have the honor to state that what transpired at the meeting has been sufficiently and faithfully recorded in the proceedings and a copy thereof has been submitted to Government and another copy circulated among the Members The minute now sent by you does not to my knowledge contain any fresh material fact and I hesitate to trespass on the valuable time of the Govt by making further reference If however there be fresh facts to be discussed the same may be mentioned at the next meeting to which the point stands adjourned Moreover all such minutes are I believe more properly to be put

before the board so that all the members may discuss them and pass resolutions. If instead of that they are to be submitted to Government, the Government would be flooded by them, there being in this District above 14 boards with upwards of 100 members. I may perhaps note a few of my views on your minute

2. You say that the Rev Sawday withdrew his application for the site. I think that it was not an unqualified withdrawal. In fact he said that he should have a vote and even mentioned that he believed that the members of Parliament voted on the subjects introduced by them

3" The description given in the proceedings of the site in question as one adjoining the Christian houses is substantially correct and there can be no mistake about it, as the plan prepared by you will shew. You wanted it to be described as one in front of the Taluk Cutcherry. I could not do so, as it is not, as a matter of

I was not I alone but many other m protested that the of the site by the misleading, I w Sawday said a described as by an chapel

of fact, in front of the Jadish Kutcharry but at some distance in rear of it immediately after the Christian houses as your plan will show

4. You say that some two years ago a site close to the one now asked for was given by the then President (Mr Cress) without consulting the members of the board. It is not for me to sit in Judgment on what was done by my predecessor, but I may perhaps state that so far as I know there is no rule that applications for house sites should not be disposed of by the President (Deputy Commissioner) but should be placed before the board. On the Contrary they are generally disposed of under the Revenue Code. I place such applications before the board to avail myself of the opinions of the members, as though the board is not a body Corporate created by any enactment with any property vested in it, its members are appointed by Executive orders of Government as Consultative Agents in matters of Sanitation &c In

regard

regard to the site in question I desired (for reasons which may develop hereafter on the day to which the point stands adjourned) to have the opinion of the full board as I believed that the votes were equal on both sides and accordingly reserved further discussion for the next meeting.

5. If a School house be built out of Municipal Funds I think it comes under the category of Municipal building and it does not require to be mentioned separately. The site in question is much too small for a Taluk Vernacular School and more space cannot be made available as the vacant ground behind the Taluk cutcherry, which minus the piece in question is a rectangle, will be reserved as a back yard for the Taluk Cutcherry. Moreover the Vernacular School is now held in a spacious Government building and there is neither the necessity nor fund for

for a fresh building. [illegible] seems doubtful if that school might be built in such close proximity to the School intended for Paraiyas and almost Contiguous to Christian houses.

I have the honor to be
Sir
Your most obedient Servant.

[illegible]
Deputy Commissioner &
President of Municipalities in the
Tinnevelly District

Enclosure 7, 17A

Observations and remarks by Mr: C.J. Dalal on letter no. 1160, dated 17th October 1891 from the President to him

—

With reference to para 1, I beg to forward a copy of the resolution as circulated among the members. The latter portion of the resolution which is written in red ink was not read over in the meeting I do not know when it was written, and whence the information was obtained. The minute submitted does not contain any fresh fact to be discussed at the meeting The majority of the members, after great discussion, asked the President to note down the two following facts - (1) that the ground should be described as an open ground in front of the Dalvis Cutcherry.

This was not mentioned in Mr. Dalal's letter Para 1 of 15/1091

If Mr. Dalal had been asked he would have said it read - See my letter dtd 25/11/91

Mr. Dalal moved & members followed him. This was misleading the ground is down - Christian houses then the Dh. Cutchery so I put down the more correct description 25/11/91

Cultchery, (2) that the ground may be required for Government boys' Vernacular School. The President did not note down these facts, though pressed by the members. They have therefore no other mode of getting redress left than that of writing separate minutes, and asking the President to forward them to Government. The President declines to do so. I beg that the Government will kindly rule as to what the members should do in cases in which the President does not note down the views of the members.

2. With reference to para 2, I beg to state that there is much difference between a member introducing a subject, and a

member

member applying for land in his own name.

3. With reference to para 3, I beg to forward the plan. The Southern gate is 9' × 11½" and open direct into the Court-yard in the centre of the building. Cart also go through this gate. The northern door is 4' × 7' and opens in one of the rooms. In the original standard design of Salug Cutcherries, this door is not even provided as none is built in the old Salug Cutcherry at Gubbi, which has the same design. I, Therefore, leave it to Government to see which is the front and which is the rear of the building.

With no way to it from the road as on the Western side
25/11/91

it is directly connected with the road in front & there is a staircase leading to it, while the Southern door has no such thing I am sure that but for this contrary fact Dalal would have agreed with me
25/11/91

4. (2) With reference to para 4, I beg to state that after the President's exposition of the law as it now stands, I have nothing to say about the land given away by Mr: Cress as Deputy Commissioner, and as Mr: Venkatavardiengar had evidently made up his mind to give the land now applied for, the members should have considered themselves better treated, if their opinion was not taken, and the land given away by him as Deputy Commissioner. Having, however, taken the votes of the members, it would have been better if the President had noted down the resolution according to the views of the Majority, and

† This is as I said that it be sold in public auction - & thanks to have the opinion of the full board, but Dalal wished to have it noted against his name at once &c
25/11/91

This is what has been done I have fully recorded the opinions then & above

then recorded his other reasons for ——— disagreeing with them. He could then have disposed of the site as Deputy Commissioner on his own authority.

5. With reference to para 5, I beg to state that the question, whether a new school house is necessary need not now be discussed by me. The point is, that the members having considered it desirable to reserve the site for school, whether the President ought to have noted it down, as desired by them, or had the option of refusing to do so.

It has been stated that some of the members wanted the site to be reserved for a Municipal building

C 5/4/21.

Simply because the municipality contributes towards vernacular schools, the school buildings are not municipal buildings.

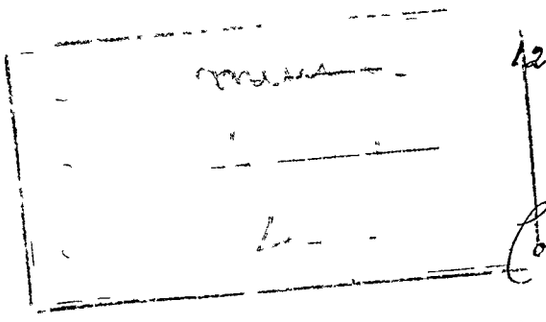
Read again letter from the Executive Engineer dated October 1891

Govt Proceedings dated 12 November 1891 No 8738: 6 / 745.



Read letter from the Dy Coms. Tumkur Distt dated Dec. 4 November 1891 No 556 regarding the building site in Tumkur applied for by Revd Mr Lawday

Order thereon

In 10647 / 1924 31/12/91

The Dy Coms is wrong in supposing that there was an equality in the number of votes. Including the Presidents ordinary vote and that of Revd Mr Lawday, who has certainly a right to vote, there were only 4 votes for the proposition, whil the number of votes against the proposition was 5. The cast... vote should be given only when the ordinary number of votes is equal on both sides If the President thinks

that in the interests of Govt
the application for the sete
should bee granted, he should
have brought the fact to
the notice of Government
and obtained orders. The
absence of any law for
the management of the
Municipalities in the Province
is no ground for summarily
setting aside the opinion of
the majority of the members
of the Municipal Board at
Tumkur. In all such cases
therefore when the President
considers that the opinion of
the majority of the Municipal
members should not be
carried out, the matter should
be referred for the orders
of Government. In the
present case, the application
for the sete should bee
reconsidered by the full
Board and the matter
referred for the orders of

Government, if the President disagrees with the majority

2 The Dy Comr should have forwarded the papers to Government when the dissenting member (Mr Dalal Executive Engineer) requested the same.

Government of Mysore

Sir,

With reference to Government order No: 10647 / C.924 of the 31st Ultimo about a Site in Tumkúr applied for by the Revd: Mr: Sawday I have the honor to state that the matter was discussed to day at a meeting of the Board attended by all the members but Mr. Sawday. His vote had already been taken and so his absence does not matter —. Of the 13 persons on the board 9 are of opinion that the piece in question should be reserved and four think that it may be disposed of. As the vacant ground beyond the Taluk Cutcherry will become a regular rectangle minus the piece in question which make it an irregular block, I share the latter view. It is close to Christian quarters

quarters and there are no
on the vicinity. I therefore fail to
see any objection to the disposal of
the site. The Christian population
of Tunkirs is not small and they
deserve as much help and encourage-
ment as others- But Mr Sawday is
the only Christian Member on the
board - I therefore strongly recommend
that the site be sold in public auction.

I have the honor to be,

Sir,

Your most obedient Servant

SECTION Misc

FILE No. 6.0.7-91

SER VI No. 6

Read again (Govt Proceeding dated 31st December 1891 etc 10647 974

Read letter from the Dy Comr of the Tumkur District dated 18th January 1892 etc 653 recommending the sale of the land behind the Taluk Cutcherry at Tumkur by public auction

Order thereon Rev 11,933 27/1/92 L 1162

The majority of the members, it is said, are of opinion that the site applied for should be preserved for some public purpose, but it is not explained if the site is for such a purpose likely to be utilized. The Dy Comr is requested to report either if the site is needed immediately or hereafter. If not, the Govt agree with the Dy Comr in thinking that it would be beneficial to the Municipality to dispose of it by public auction

26/1/92

To The D. C. Tumkur. Dear Sir

The Deputy Commissioner
Tumkur District

Dated 27th January 1892
